

**IMPORTANT**  
**Your Presence is Needed!**  
**FAA Public Hearing on Hangar 24 Demolition**  
**Thursday, July 17, 2008**  
**7:00 PM**  
**Bemis Hall, 15 Bedford Road, Lincoln**  
**(Opposite stone church; parking behind church)**

Massport is at it again. In a move to expand jet aviation facilities at Hanscom, and increase flights, it wants to demolish the historic MIT and Draper Lab Hangar 24 before the proposal to develop it as an Aerospace & Technology Museum can be realized.

Help stop Massport's expansion plans for Hanscom with your presence at this important hearing at which the FAA will hear arguments in favor of saving this historic building and stopping the development of a new jet FBO facility on Virginia Road, bordering the MMNHP.

It is July—a Massport tactic to avoid a large citizen turnout. If you possibly can, get to this important hearing
